

Total Number of Accidents

107.9k

Number of Persons Killed

21.77k

**Most accident prone zones - Tamil Nadu, Madhya Pradesh.**

**Contributes 1/4th of the Total Accidents happened in INDIA.**

Hotspots of Road Accidents in India

Total Number of Accidents

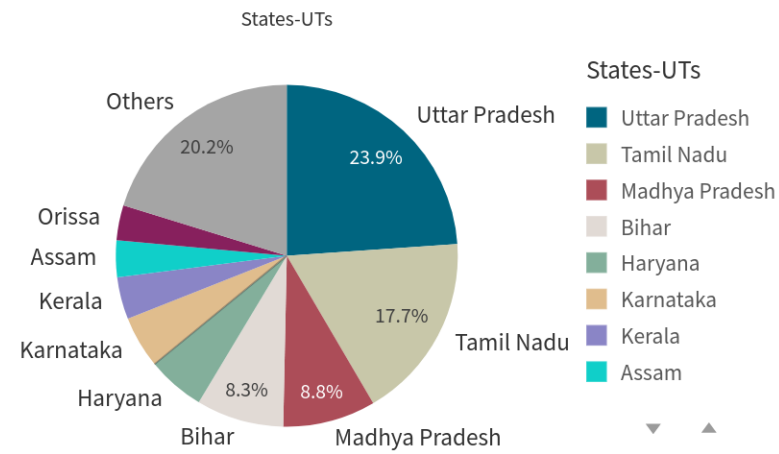

42.57k

Number of Persons Killed

22.66k

Eventhough not a high accident prone zone, "Uttar Pradesh" leads in the Number of Persons Killed compared to other states in INDIA.

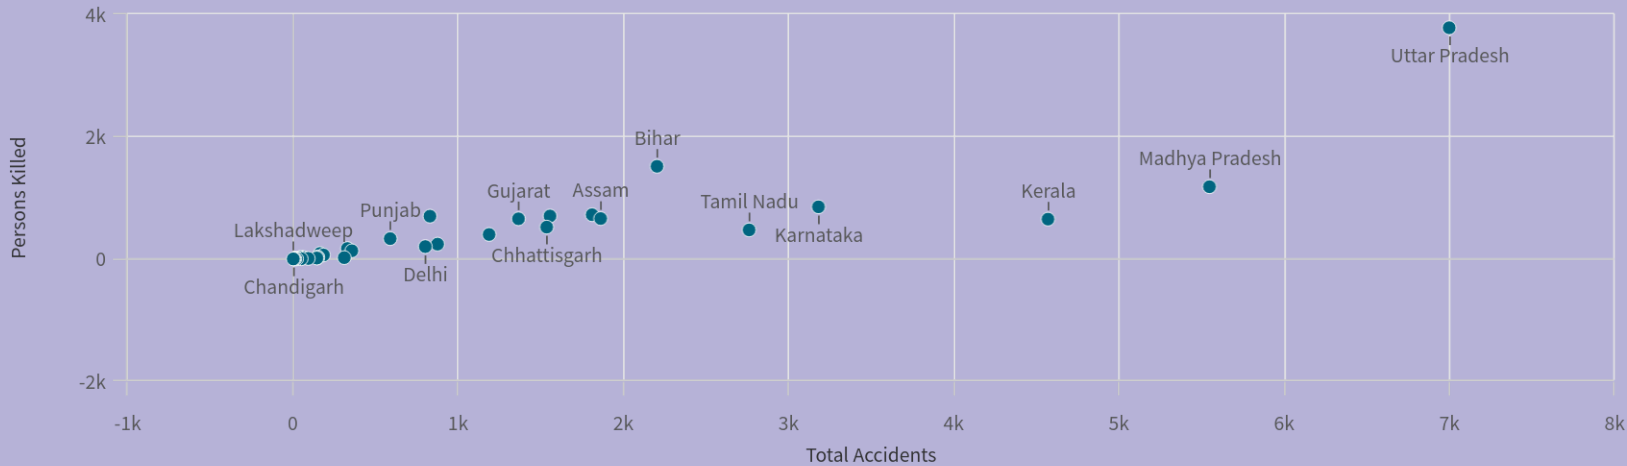

Accidents during Foggy and Misty Conditions

At a very clear weather, the state with highest ranking for kills is "Maharastra". But the state with high accidents during Foggy Conditions and High kill ratio during Rainy season is "Uttar Pradesh".

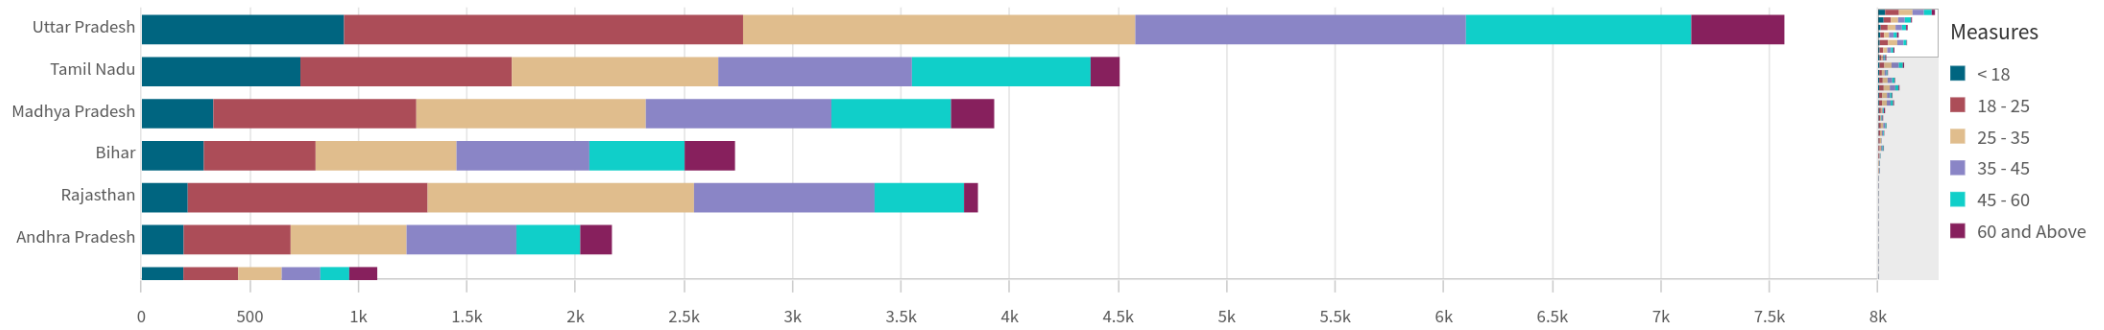

The "**Maharastra**" people **dies highly on clear weather than difficult conditions**, this shows the **carelessness** of their people.

Total Accidents vs Persons Killed (Rainy Weather)

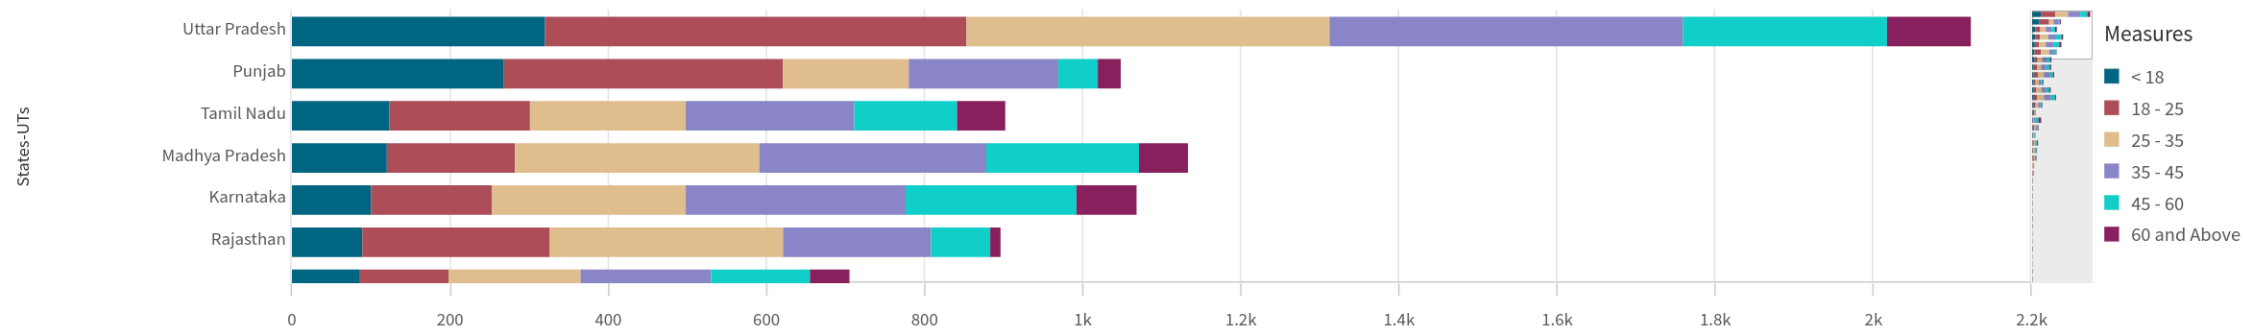

## Accidents on Male Pedestrians

There's not much Difference gap between accidents on age group of 18 - 45

## Accidents on Female Pedestrians

Number of accidents increased on age group of 25 - 35

The scale of Accidents on male and female pedestrians is incomparable
